For the second event, the teachers from the local highschool “Liceul Tehnologic Constantin Cantacuzino” Baicoi were involved in promoting the activity and invited the youth to attend the sessions.

The feedback from the partners was collected in two steps :

1. At the end of the event by doing a short and interactive feedback via the slido app which showed that the participants felt engaged within the conference and had a great experience.
2. After the conference by using the google form <https://forms.gle/q6BVBv3Vb5DYu3aM7>

The results are showing that for the majority of attendees, the general view of the event was very interesting, with the precise that the partners could have been more active in the discussion with the EP candidates and the national politician.

“I like the program and that you stick to it and everything was as planned without any change so I think you couldn't do anything more. More than this is perfect.”

The logistic information received before the meeting was ranked as “very good”: The session with the EU and National policy-makers experts was also ranked as “very good”,
